PROFILE

UI/UX Designer with hands-on experience creating intuitive software interfaces, reusable UI components, and user-centered workflows. Proficient in Figma, usability testing, and collaborating with developers to translate designs into functional products. Appointed Junior UI/UX Designer at Aarawan Media & Tech after successfully completing a three-month internship.

EXPERIENCE

14 Jun - 17 Sep 2026

UI/UX Design Intern

Aarawan Media & Tech | Kathmandu, Nepal

- Assisted with usability testing, interface reviews, and refinements based on feedback.
- Design and refine software product interfaces, prioritizing clarity, usability, and consistent interaction patterns.
- Collaborate with developers to communicate design decisions and support accurate implementation.
- Created reusable interface elements and collaborated with the product development team.

SELECTED PROJECTS

Product Design

Numira Accounting & Business Management Software

- Designed the party, purchase, accounting, profile, and settings sections of a business-management platform, including customer, supplier, sales, and quotation workflows.
- Designed purchase orders, bills, supplier payments, vouchers with reversal, and the chart of accounts, with status-based menus and clear partial-payment messages.
- Designed fiscal year closing, data migration, user roles, subscription, and security flows, using type-to-confirm dialogs for irreversible actions in dense, structured layouts.

Product Design

SOMTU Website | School of Management, Tribhuvan University

- Designed the complete university website from landing page to registration, covering 87 screens and 81 component variants across desktop and mobile.
- Designed updates and notices, events, research, resources, and a seven-step program registration flow with search, filters, and status-aware pages.
- Delivered a design reference of all screens and components to support developer handoff.

Product Design

The Vedic Sewa | Spiritual Services Platform

- Designed customer and guru profiles, booking detail pages, and card flows whose actions follow each booking’s status, on web and mobile.
- Designed puja, yatra, and consultation booking flows, the shop and purchase flow with returns and refunds, livestream, inbox, and notifications.
- Designed guru document verification, guru listing, FAQ, and terms, privacy, and refund policies, including empty, pending, locked, and error states.

SKILLS

UX Design	: User flows, usability testing, interaction design, workflow design
UI Design	: Interface design, typography, layout, UI components
Design System	: Reusable components, design consistency, iteration
Delivery & Tools	: Figma, Adobe Photoshop, Adobe Illustrator, developer handoff, cross-functional collaboration
